EUC DUTAMAS PRINTING

Artwork setup worksheet

20 mm Custom Printed Lanyard

Use this worksheet to record the finished dimensions and artwork orientation.
This worksheet is a setup reference. Request the production dieline or panel drawing from EUC before preparing artwork that requires cutting, folds or hardware clearance.

Selected model or size _____

Finished width x height and units _____

Material and finishing _____

Artwork filename or share URL _____

Artwork placement sketch

Mark trim, orientation, and key design elements.

Schematic only. Dimensions are recorded above.

Before supplying artwork

1. Match the supplied artwork dimensions to your selected size.
2. Supply an editable vector file or print-ready PDF and embed or outline fonts.
3. Confirm bleed, safe area and any special finish layers with EUC.
